NEWSLETTER Q3-18

Friends of Stichting Beter Malawi,

Here a new report of the developments in Malawi, thanks to your support. We are still working on our new 5-year plan and just received a report on the progress in Malawi.

Leading Farmer Project (LFP)

We are now starting for the 3rd time with our agricultural program to grow maize in a different way. 32 farmers will participate. The preparation started.

Prepare the land and cover it with the corn residue from the previous season.

At Namilongo the deposition for the school garden is made.

It remains a challenge for the farmers to understand it all, which is why we are going to focus even more on guidance and training this year. Lewis takes the lead. His wife (Lennis) has now become one of the better farmers. Now she has to use this method for all the land.

Classrooms for Namilongo primary school

How is the construction of the classrooms? Sometimes the photos show enough. They started in mid-August.

We realize this project together with the Wilde Ganzen Foundation.

Date: 21 October 2018

NEWSLETTER Q3-18

And it goes pretty well!

We think we are ready for the rainy season (end of November).

Schoolfees

A contribution from our Kim.

We already have a lot of sponsors for the children. I am very happy about this. We can already make 11 children happy by paying their school fees. I am working hard to receive photos, reports, letters and films from all children. If I have received this, then I will link the children to a sponsor. Then I personally send the sponsors the data and photos of their own sponsored child. Until then, it is still a matter of waiting. Below is a group photo of 8 of the 11 children. I am so proud. Would you also like to sponsor a child who wants to go to school? You can fulfill the wish of 1 child by transfer monthly € 5, - to:

Stichting Beter Malawi IBAN: NL98 RABO 0139 4964 16. Do not forget to send me an e-mail so that I know about it. Kim@betermalawi.nl

5-year plan

It is not easy to get a good idea of the goal we pursue and how we can achieve it. Difficulties sometimes occur with the differences in culture and communication. Sometimes we think that it is all understood in Malawi, but shortly after that you realize that all developments are going very fast for them. We therefore sometimes have to take a step back and continue a bit longer with the transfer of knowledge and guidance to the people. We do expect to have the plan before the next quarterly report.

Financial

As usual, Wim has already updated the quarterly figures and is visible on our website again. We love keeping everything as transparent as possible.

The Better Malawi Team

NEWSLETTER Q3-18

And then another news. It was already October 2 (outside KW3), but we want to tell you. Manon has become a proud mother of Bibi.

Congratulations on behalf of the Beter Malawi team.
